Dear Librarian:

I am working on genealogy and hoping you can help. In the 1820 and 1830 Federal Census for OHIO, one of my relatives, John Yeager (Yager), is listed as living in Jackson County.

John and Margaret Yager had several children in Ohio. Do you have any information about them? Possibly early settlers in the area or land records. Any gravestone inscriptions for Yager/Yeager whether young or old?

By 1830, John would be about 32 and had at least four children but don't know if all survived. Old papers indicate they were married October 28, 1819 and had their first child in 1820. Do you have marriage records for that time period? If not, where should I write to locate same? Is there a local historical society?

Enclosed is a check for \$3.00 to cover photocopy costs and return mail. Any help will be appreciated. Thank you.

Sincerely,

*Merla Clark*
