HAS HEART TROUBLE

John Bales Is Stricken While Uptown Monday.

John Bales was stricken with a heart attack while talking to Ed. Montgomery at the corner of Broadway and Main Streets Monday noon. He was unconscious for a time, but was revived after Dr. W. H. Monahan injected a stimulant.

Mr. Bales is a victim of "tobacco heart," blamed on excessive use of nicotine. On one previous occasion, it is said, he was stricken while riding a horse. He fell from the horse, and suffered some painful injuries.
